- **Inter-Galactic** (2022). Solo developed a retro space shooter video game using only **HTML Canvas**, **CSS**, and **JavaScript**. The game uses trigonometric ratios for the physics and movement of the spaceship.
- **Pocket Change** (2023). Developed a full-stack, cross platform, web application for users to keep track and manage their finances. A **React** application made using the help of **Bootstrap** for styling and **ChartJS** for dynamic graphing. All data is currently stored in local storage; I intend to implement a backend in the future using **Firebase**.
- **Personal Portfolio** (2023). Created a personal portfolio website using vanilla **JavaScript**, **HTML** and **CSS**. The portfolio showcases an in-depth look at all my projects and design work.

- **Software:** Affinity Designer, Adobe Illustrator, Adobe After Effects, Adobe XD, Figma, Microsoft Word, Microsoft PowerPoint, Visual Studio Code, Unity, GitHub
- **Frontend:** JavaScript, HTML/CSS, Bootstrap, React
- **Backend:** Firebase, Java, Python, C, SQL
- **Bilingual:** Fluent in both Spanish and English.
